# senseFOAM

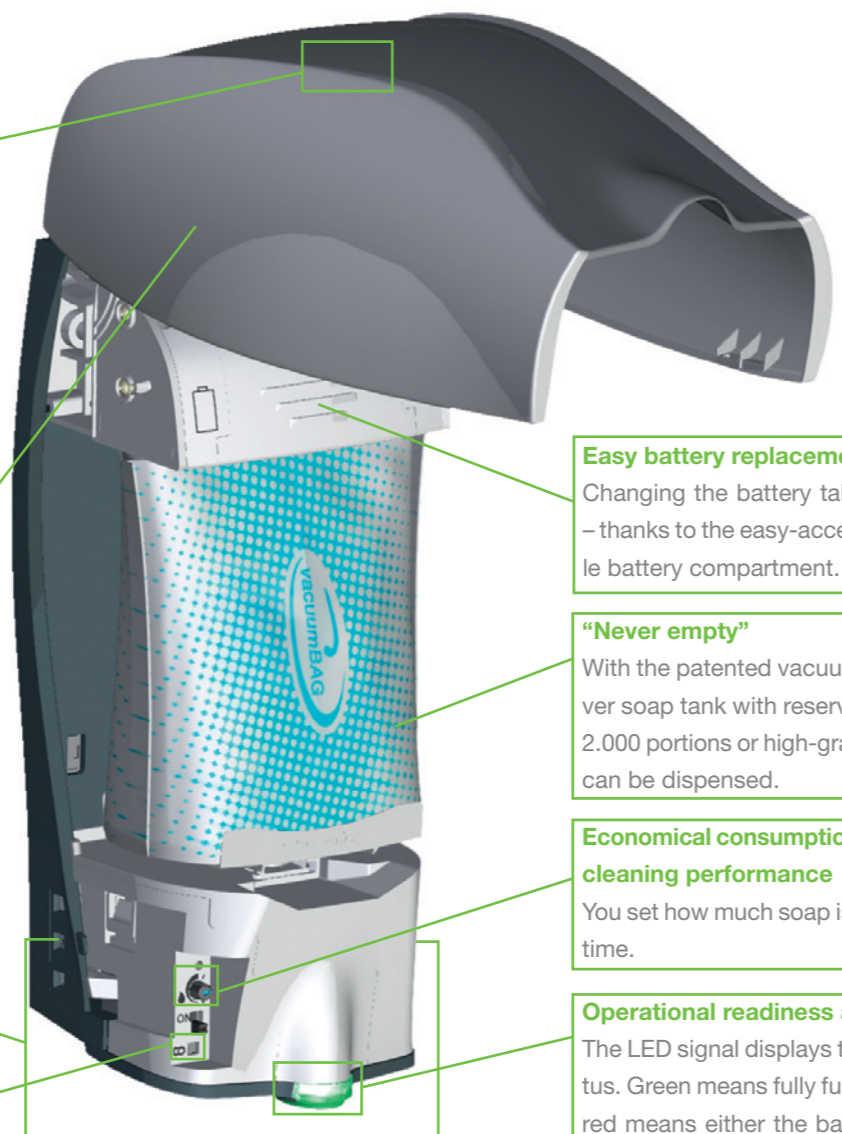

the new washroom generation

# XIBU

intelligent **balanced** unique

# XIBU senseFOAM - YOUR BENEFITS

**Heavy-duty housing**  
The ABS plastic housing is resistant to knocks and scratches. The dispenser surface is easy to clean.

**Simple cover opening**  
You only need one hand to open the dispenser. The dispenser lid opens automatically and gently upwards.

**Flexible installation, anti-theft protection**  
Double-sided cover lock for flexible wall mounting. Your refill is protected against theft.

**Battery charge display**  
The LED light shows you how much charge is left in the battery.

**Standby mode**  
Activate the standby-mode with the cleaning button on the underside of the dispenser. This offers you uncomplicated cleaning underneath the dispenser at the press of button.

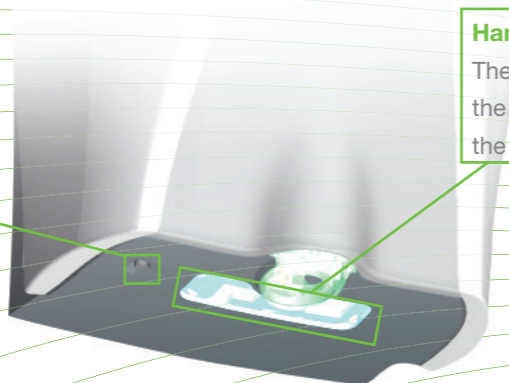

**Easy battery replacement**  
Changing the battery takes just seconds – thanks to the easy-access and removable battery compartment.

**“Never empty”**  
With the patented vacuumBAG and a clever soap tank with reserve capacity, up to 2.000 portions or high-grade foaming soap can be dispensed.

**Economical consumption with maximum cleaning performance**  
You set how much soap is dispensed each time.

**Operational readiness at a glance**  
The LED signal displays the operating status. Green means fully functioning. Green/red means either the battery or the soap is running low.

**Hands-free, convenient operation**  
The intelligent sensor technology recognises the presence of your hands and dispenses the soap automatically.

# THE HANDS-FREE FOAM SOAP DISPENSER

Experience the new generation of foam soap dispenser with **XIBU** senseFOAM. Economical consumption, service friendliness, unique design and hands-free operation – these are your benefits.

**intelligent**

The **XIBU** senseFOAM provides you with high-quality foam soap – without having to touch the dispenser. You choose whether you want to use pure foam soap on its own or with a disinfectant effect in a single operation. **That's your hygiene benefit!**

One glance at the senseFOAM dispenser and you'll see whether it is operationally ready – without having to open it. The LED light shows you when the battery or soap are running low. A clever reserve capacity system lets your dispenser carry on working in between refills. The system key lets you open the dispenser with one hand. **That makes servicing simple and saves time!**

**balanced**

Use our patented vacuumBAG as a refill. You adjust how much soap is dispensed each time. This innovative technology dispenses 660 to 2.000 portions, depending on the setting. **XIBU** senseFOAM combines **maximum cleaning with long-lasting performance.**

**unique**

Unique design and state-of-the-art functions go hand in hand – **XIBU**, the new washroom system from HAGLEITNER. Whether stylishly marbled ceramic or sporty high-tech carbon, the **XIBU** dispenser adapts to the **design of your washroom like a chameleon.** Choose your favourites from a total of nine decorative finishes.

**Innovative technology and flexible design**  
– that's what the XIBU washroom system stands for
